Heart of Florida Health Center

Chairman’s Message from Randy Klein

We’ve come a long way since the transformation from Community Health Services, a free walk-in episodic clinic with a small staff of nurses, to a Federally Qualified Health Center (FQHC) with two physicians, four advanced registered nurse practitioners and a licensed clinical social worker. There were over 20,000 patient visits last year for medical, mental health and support services including labs and pharmacy assistance. We provide our patients, the vast majority of whom are uninsured and had no medical home, with excellent and affordable primary care. This year HFHC plans to initiate an emergency room diversion program to ease the overcrowding in our hospital emergency rooms and will also begin providing dental services.

CEO’s Message from Kerrie Jones Clark

Heart of Florida Health Center (HFHC) continues to make the transition from a walk-in clinic for people seeking episodic care to a medical home working to improve the health status of the community by teaching patients the value of having a primary care provider. Marion County’s unemployment rate is over 14%, emphasizing the need for affordable healthcare.

We continue to strengthen our working relationship with Munroe Regional Medical Center and Ocala Regional Health System. Primary care can be delivered more effectively and more cost effectively in a doctor’s office rather than in the emergency departments. Marion County assists HFHC in many ways because they recognize that over one-third of county residents are uninsured or on Medicaid and need access to affordable care. Our partnerships with The Centers and the Marion County Health Department are also important because they allow all of us to strengthen the local delivery system and maximize access to services.

HFHC will continue our course of looking for ways to provide quality, cost effective care so we can expand to additional sites in underserved areas.
Heart of Florida Health Center: Moving Forward in Healthcare

The many accomplishments in the second year of funding included these standouts:

• In 2010 there were 21,425 patient visits for medical, mental health, labs, pharmacy assistance and support services by 5,186 patients. HFHC has a total of 10,497 unduplicated patients since becoming a federally qualified health center.

• With the support of Munroe Regional Medical Center HFHC received Low Income Pool (LIP) funds from the Agency for Health Care Administration (AHCA) to significantly increase the number of patients from both Munroe and Ocala health systems for whom HFHC can create a medical home. Funding was received in February, 2011.

• The Ocala Star Banner and HFHC presented the Lose to Win Challenge in partnership with five area fitness centers and 20 residents who went on a 16-week journey to lose weight and increase their level of fitness. Prizes were awarded from area sponsors and the results were amazing, with a total weight loss of 1,016.5 lbs, a winning team weight loss of 250.5 lbs and an individual weight loss of 116 lbs.

• County funds through Community Development Block Grant combined with federal funds made it possible to develop two dental exam rooms for which funds are currently being sought for a dentist, a hygienist and a dental assistant.

• The Munroe Foundation has funded mammograms for HFHC patients through support they receive from Susan G. Komen for the Cure. Lockheed Martin also contributed to this effort through an employee fundraiser.

• Congressman Cliff Stearns toured HFHC as part of National Community Health Center Week. After the tour we held a roundtable discussion with the Congressman and local health care providers about the importance of maintaining access to primary care and mental health services.

Our 2011 goal is to increase access to primary care, mental health and dental in the following ways:

• New Access Point funding will be announced by the federal government in August, 2011, and HFHC has applied for funding to open a health center that will serve the Marion Oaks, Belleview and Dunnellon communities.

• Dental: We are actively searching for funding and volunteer dentists to provide services for our pediatric patients, with limited adult service available during the second quarter of 2011.

• Strengthening our partnerships with The Centers and the Marion County Health Department to ensure that Marion County residents have access to primary health care, mental health services and dental to the extent possible with the potential for reductions in federal and state budgets.

2010 HFHC Funding

Prior to becoming an FQHC Heart of Florida Health Center (HFHC) was known as Community Health Services and since 1991 had provided walk-in, episodic care with funding from Munroe Regional Medical Center (MRMC) and Ocala Regional Health System (ORHS). In 2008 the Marion County Board of Commissioners in recognition of the need also awarded funds to the health center with the understanding that the HFHC Board of Directors would apply for federal funds.

Total budget $2.8 million. Federal funding includes grants of $847,000 2) State funding is $64,880; 3) Local : $400,000 from MRMC, $100,000 from ORHS, $80,000 from Marion County Commission, $95,000 from Munroe Foundation, $50,000 from Blue Foundation and $16,000 in Community Development Block Grant; Patient Payments include $89,000 from Medicaid, $89,908 from Medicare, $2,885 from private insurance, and $188,468 from self-pay; Other includes donations of $34,463; In-kind services of $429,760 from Marion County Health Department for medical services and County Commissioners for building.

*Drug Assistance Program **HFHC Works with Marion County Medical Society to provide We Care program

HFHC is a 50105 charitable organization and is registered with the State of Florida Department of Agriculture and Consumer Services under Reg. No. #50-07170. A copy of the official registration and financial information may be obtained from the Division of Consumer Services by calling toll-free 1-800-435-7352, within Florida. Registration does not imply endorsement, approval, or recommendation by the State of Florida.
Our Mission

It is the mission of the Heart of Florida Health Center (HFHC) to improve the overall health status of Marion County residents by providing quality primary medical, dental, and mental health services to all residents, but in particular to those residents who would not otherwise be able to access these services due to financial limitation and/or lack of health insurance.

Chairman’s Message from Randy Klein

We’ve come a long way since the transformation from Community Health Services, a free walk-in episodic clinic with a small staff of nurses, to a Federally Qualified Health Center (FQHC) with two physicians, four advanced registered nurse practitioners and a licensed clinical social worker. There were over 20,000 patient visits last year for medical, mental health and support services including labs and pharmacy assistance. We provide our patients, the vast majority of whom are uninsured and had no medical home, with excellent and affordable primary care. This year HFHC plans to initiate an emergency room diversion program to ease the overcrowding in our hospital emergency rooms and will also begin providing dental services.

CEO’s Message from Kerrie Jones Clark

Heart of Florida Health Center (HFHC) continues to make the transition from a walk-in clinic for people seeking episodic care to a medical home working to improve the health status of the community by teaching patients the value of having a primary care provider. Marion County’s unemployment rate is over 14%, emphasizing the need for affordable healthcare.

We continue to strengthen our working relationship with Munroe Regional Medical Center and Ocala Regional Health System. Primary care can be delivered more effectively and more cost effectively in a doctor’s office rather than in the emergency departments. Marion County assists HFHC in many ways because they recognize that over one-third of county residents are uninsured or on Medicaid and need access to affordable care. Our partnerships with The Centers and the Marion County Health Department are also important because they allow all of us to strengthen the local delivery system and maximize access to services.

HFHC will continue our course of looking for ways to provide quality, cost effective care so we can expand to additional sites in underserved areas.

Chairman’s Message
